The Journal of Pediatric Research is the official publication of Ege University Faculty of Medicine, Department of Pediatrics and Ege Children’s Foundation. It is a peer-reviewed journal published quarterly in March, June, September and December in English language.

The Journal of Pediatric Research is a peer-reviewed, open access journal, which publishes original research articles, invited review articles, clinical reports and case reports in all areas of pediatric research.

The journal publishes original research and review articles, which summarize recent developments about a particular subject based on standards of excellence and expert review and case reports. Target audience includes specialists in general pediatrics and pediatric subspecialties (Emergency Medicine, Allergy and Immunology, Endocrinology, Gastroenterology, Hepatology and Nutrition, Genetics, Cardiology, Hematology-Oncology, Infectious Diseases, Metabolism, Nephrology, Neurology, Rheumatology, Pulmonology, Social Pediatrics, Newborn, Critical Care Medicine, Ethics and Health Service Research), as well as relevant specialties such as Pediatric Surgery, Child and Adolescent Psychiatry, Pedodontics, Pediatric Nursing and Family Physicians. The web page of The Journal of Pediatric Research is http://www.jpedres.org/.

Statistics Editor evaluates research articles and systematic reviews/meta-analyses for appropriateness of data presentation and correctness of statistical analyses.

All submitted manuscripts are peer reviewed which take on average 6 weeks. Following acceptance of the submission, all authors are required to see and approve the final version of the manuscript and be willing to take responsibility for the entire manuscript. It is strictly expected that submitted manuscripts have not been published elsewhere or even being submitted by another publication. Studies performed on human require ethics committee certificate including approval number. For the manuscripts involving cases, a written informed consent should be obtained from the parents or the responsible persons.

The Journal of Pediatric Research is indexed in Web of Science-Emerging Sources Citation Index (ESCI), Directory of Open Access Journals (DOAJ), EBSCO, British Library, CINAHL Complete Database, ProQuest, Gale/Cengage Learning, Index Copernicus,TÜBİTAK/ULAKBİM TR Index, TurkMedline, J-GATE, IdealOnline, ROOT INDEXING, HINARI, GOALI, ARDI, OARE, AGORA, EuroPub and Türkiye Citation Index, CABI.

Open Access Policy

This journal provides immediate open access to its content on the principle that making research freely available to the public supports a greater global exchange of knowledge.

Open Access Policy is based on rules of Budapest Open Access Initiative (BOAI) http://www.budapestopenaccessinitiative.org/. By “open access” to [peer-reviewed research literature], we mean its free availability on the public internet, permitting any users to read, download, copy, distribute, print, search, or link to the full texts of these articles, crawl them for indexing, pass them as data to software, or use them for any other lawful purpose, without financial, legal, or technical barriers other than those inseparable from gaining access to the internet itself. The only constraint on reproduction and distribution, and the only role for copyright in this domain, should be to give authors control over the integrity of their work and the right to be properly acknowledged and cited.

Introductions to Authors

Introductions for authors are published in the journal and on the web page www.jpedres.org

Material Disclaimer

The author(s) is (are) responsible from the articles published in the The Journal of Pediatric Research. The editor, editorial board and publisher do not accept any responsibility for the articles.

Subscription Information

Subscription for The Journal of Pediatric Research please contact Galenos Yayinevi (Publishing House). Subscribers who have not reached the hard copy of the journal within the period should apply to Galenos Publishing House. All issues of the journal with the full texts can be accessed from the journal’s address www.jpedres.org.

Cover Photo

We choose The Journal of Pediatric Research cover photo for each issue from the pictures found in the articles of that issue.

The journal is printed on acid-free paper.
The Journal of Pediatric Research is an independent international journal focusing on unique clinical and laboratory research papers, case reports, reviews directly or indirectly related to children’s health and diseases. The publication language of the journal is English.

The Journal of Pediatric Research does not charge any article submission or processing charges.

The abbreviation of The Journal of Pediatric Research is JPR, however, it should be denoted as J Pediatr Res when referenced. In the international index and database, the name of the journal has been registered as The Journal of Pediatric Research and abbreviated as J Pediatr Res.

The Journal of Pediatric Research assigns an Associate Editor. The Associate Editor sends the manuscript to the Editor-in-Chief, who reviews the manuscript and makes an initial decision based on editorial priorities, manuscript quality, and reviewer recommendations. If there are any conflicting recommendations from reviewers, the Editor-in-Chief can assign a new reviewer.

The scientific board guiding the selection of the papers to be published in the Journal consists of elected experts of the Journal and if necessary, selected from national and international authorities. The Editor-in-Chief, Associate Editors, biostatistics expert and English language consultant may make minor corrections to accepted manuscripts that do not change the main text of the paper.

In case of any suspicion or claim regarding scientific shortcomings or ethical infringement, the Journal reserves the right to submit the manuscript to the supporting institutions or other authorities for investigation. The Journal accepts the responsibility of initiating action but does not undertake any responsibility for an actual investigation or any power of decision.

The Editorial Policies and General Guidelines for manuscript preparation specified below are based on "Recommendations for the Conduct, Reporting, Editing, and Publication of Scholarly Work in Medical Journals (ICMJE Recommendations)" by the International Committee of Medical Journal Editors (2016, archived at http://www.icmje.org/).

Preparation of research articles, systematic reviews and meta-analyses must comply with study design guidelines:

STROBE statement, a checklist of items that should be included in reports of observational studies (http://www.strobe-statement.org/);

GENERAL GUIDELINES

Manuscripts can only be submitted electronically through the Journal Agent system allows online submission and review.

Manuscripts can only be submitted electronically through the Journal Agent system allows online submission and review.

The manuscripts are accepted, shall be published in the journal and issued from national and international authorities. The Editor-in-Chief, Associate Editors, biostatistics expert and English language consultant may make minor corrections to accepted manuscripts that do not change the main text of the paper.

Instructions to Authors

Library, CINAHL, Complete Database, ProQuest, Gale/Cengage Learning, Index Copernicus, Tubitak/Ulakbim TR Index, TurkMedline, J-GATE, IdealOnline, ROOT INDEXING, HINARI, GOALI, ARDI, OARE, AGORA, EuroPub and Türkiye Citation Index.

The ORCID (Open Researcher and Contributor ID) number of the correspondence author should be provided while sending the manuscript. A free registration can be created at http://orcid.org.

Format: Unique research papers cover clinical research, observational studies, novel techniques, and experimental and laboratory studies. Unique research papers shall consist of a heading, abstract, keywords related to the main topic of the paper, introduction, materials and methods, results, discussion, acknowledgements, bibliography, tables and figures. Manuscripts should be prepared using 12 pt "Times New Roman" and 1.5 line spacing. The text shall not exceed 2500 words. Case reports must contain rare cases or those that are unique in diagnosis and treatment, those which contribute to current knowledge and provide educational information, along with the introduction, case reporting and discussion sections. The whole text must not exceed 1500 words. Reviews are texts in which a current subject is examined independently, with reference to scientific literature. The whole text must not exceed 18 A4 paper sheets. Letters to the Editor must be manuscripts, which do not exceed 1000 words, with reference to scientific literature, and those written in response to issued literature or those, which include development details should be presented in the Materials and Methods section or under the article should be described and the software used should be defined. Statistical terms, abbreviations and symbols used in the article should be described and the software used should be defined. Statistical terminology (random, significant, correlation, etc.) should not be used in non-statistical contexts.

A free registration can be created at http://orcid.org.

Abbreviations: Abbreviations should be defined at first mention and used consistently thereafter. Internationally accepted abbreviations should be used; refer to scientific writing guides as necessary.

Cover letter: The cover letter should include statements about manuscript completeness, ownership of the manuscript, and statements in support of the scientific community. The cover letter should state that the work is original and has not been submitted or published elsewhere.

References: All references should be numbered by Arabic numerals (1, 2) according to their sequence. Any additional information should be included. All tables, graphics or figures should be included. Images should be numbered and include a brief title.

References section: All author names shall be stated within all references. References shall be listed as the below formats on a separate page according to their sequence within the text and referred to in the text in parentheses. However, in studies where author numbers exceed 6, names of the first 3 authors shall be stated; "et al." additions shall be made to the list of authors in English references, respectively. The titles of journals should be abbreviated according to the style used in the Index Medicus.

Reference Format

Journal: Last name(s) of the author(s) and initials, article title, publication title and its original abbreviation, publication date, volume, the inclusive page numbers.

Instructions to Authors

Discussion sections. The whole text must not exceed 1500 words. Reviews are
texts in which a current subject is examined independently, with reference to
scientific literature. The whole text must not exceed 18 A4 paper sheets. Letters
to the Editor must be manuscripts, which do not exceed 1000 words, with
reference to scientific literature, and those written in response to issued literature
or those, which include development in the field of pediatrics. These manuscripts
do not contain an abstract. The number of references is limited to 5.

Title Page: This page should include the title of the manuscript, short title,
name(s) of the authors and author information. The following descriptions
should be stated in the given order:
1. Title of the manuscript (English), as concise and explanatory as possible,
   including no abbreviations, up to 135 characters
2. Short title (English), up to 60 characters
3. Name(s) and surname(s) of the author(s) (without abbreviations and
   academic titles) and affiliations
4. Name, address, e-mail, phone and fax number of the corresponding author
5. The place and date of scientific meeting in which the manuscript was
   presented and its abstract published in the abstract book, if applicable

Abstract: A summary of the manuscript should be written in English.
References should not be cited in the abstract. Use of abbreviations should
be avoided as much as possible; if any abbreviations are used, they must be
taken into consideration independently of the abbreviations used in the text.
For original articles, the structured abstract should include the following sub-
headings:

Aim: The aim of the study should be clearly stated.

Materials and Methods: The study and standard criteria used should be
defined; it should also be indicated whether the study is randomized or not,
whether it is retrospective or prospective, and the statistical methods applied
should be indicated, if applicable.

Results: The detailed results of the study should be given and the statistical
significance level should be indicated.

Conclusion: Should summarize the results of the study, the clinical applicability
of the results should be defined, and the favorable and unfavorable aspects
should be declared.

Keywords: A list of minimum 3, but no more than 5 key words must follow
the abstract. Key words should be consistent with “Medical Subject Headings

Original research articles should have the following sections:

Introduction: Should consist of a brief explanation of the topic and indicate
the objective of the study, supported by information from the literature.

Materials and Methods: The study plan should be clearly described,
describing whether the study is randomized or not, whether it is retrospective
or prospective, the number of trials, the characteristics, and the statistical
methods used.

Results: The results of the study should be stated, with tables/figures given
in numerical order; the results should be evaluated according to the statistical
analysis methods applied. See General Guidelines for details about the
preparation of visual material.

Discussion: The study results should be discussed in terms of their favorable
and unfavorable aspects and they should be compared with the literature. The
conclusion of the study should be highlighted.

Study Limitations: Limitations of the study should be discussed. In addition,
an evaluation of the implications of the obtained findings/results for future
research should be outlined.

Conclusion: The conclusion of the study should be highlighted.

Acknowledgements: Any technical or financial support or editorial
contributions (statistical analysis, English evaluation) towards the study should
appear at the end of the article.

References: Authors are responsible for the accuracy of the references. See
General Guidelines for details about the usage and formatting required.

Case Reports
Case reports should present cases which are rarely seen, feature novelty
in diagnosis and treatment, and contribute to our current knowledge. The
first page should include the title in English, an unstructured summary
not exceeding 50 words, and key words. The main text should consist of
introduction, case report, discussion and references. The entire text should
not exceed 1500 words (A4, formatted as specified above). A maximum of 10
references shall be used in case reports.

Review Articles
Review articles can address any aspect of clinical or laboratory pediatrics. Review
articles must provide critical analyses of contemporary evidence and provide
directions for future research. The journal only accepts and publishes
invited reviews. Before sending a review, discussion with the editor is
recommended.

Reviews articles analyze topics in depth, independently and objectively. The
first chapter should include the title in English, an unstructured summary and
key words. Source of all citations should be indicated. The entire text should
not exceed 18 pages (A4, formatted as specified above)

Letters to the Editor
Letters to the Editor should be short commentaries related to current
developments in pediatrics and their scientific and social aspects, or may
be submitted to ask questions or offer further contributions in response to
work that has been published in the Journal. Letters do not include a title
or an abstract; they should not exceed 1.000 words and can have up to 5
references.

COMMERCIALIZATION
Commercialization issues shall be discussed with the editor. It is possible to
include an advertisement on the outer and inner pages of the journal.

Contents

102 ▶ A Novel Molecular Indicator for Inhibitor Development in Haemophilia A
Esra Işık, Humay Mehdiyeva, Bilçag Akgün, Timur Köse, Kaan Kavaklı, Ferda Özkınay, Tahir Atık; İzmir, Turkey

110 ▶ Long-term Outcome of Infants with Spina Bifida Through Assessment of the Prognostic Value of Hostile Bladder Parameters
Ali Tekin, Sibel Tiryaki, Eзиg Altun Tanlı, Ibrahim Ulman; İzmir, Turkey

116 ▶ The Effects of Game Intervention on Postoperative Anxiety and Pain Levels in Children: A Randomized Controlled Study
Seher Ünver, Özlem Cürey, Seda Aral; Edirne, İstanbul, Turkey

124 ▶ Comparison of the Efficacy of Three Natural Surfactants in Preterm Turkish Newborns with Respiratory Distress Syndrome
Fatma Hilal Yılmaz, Nuriye Tarakoğlu, Nazli Dilay Gültekin, Mehmet Yücel, Ramazan Keçeci, Elf Nur Yıldırım Öztürk, Hüseyin Altunhan; Konya, Van, Turkey

131 ▶ The Effect of Web-based Diabetes Education on the Metabolic Control, Self-efficacy and Quality of Life of Adolescents with Type 1 Diabetes Mellitus in Turkey
Dijle Ayar, Candan Öztürk, Margaret Grey; İzmir, Turkey, Nicosia, Cyprus, Connecticut, United States

139 ▶ Is the Winograd Technique an Effective Method in the Treatment of Ingrown Toenails among the Pediatric Population?
Murat Celal Sözbilen; İzmir, Turkey

145 ▶ Psycholinguistic and Psychometric Measurements of the Turkish Pediatric Epilepsy Medication Self-management Questionnaire
Şerife Tutar, Ayşegül İlker Dalgıç; Isparta, Antalya, Turkey

155 ▶ Outcomes of Dyslipidemia Screening Program in School-aged Children
Engin Köse, Melis Köse, Sipil Topçu, Büşra Matur, Buket Banoğlu, Behzat Özkan; Ankara, İzmir, Turkey

161 ▶ The Relation of Complete Blood Count Parameters with Metabolic and Clinical Parameters in Overweight and Obese Children
Ayşe Anık, Elif Celik, Ahmet Anık; Aydın, Turkey

171 ▶ Benign Early Repolarization Pattern: Is it Really Benign for Children?
Şeyma Kayalı, Fadime Demir, Mesut Koçak, Cem Karadeniz; Ankara, İzmir, Turkey

176 ▶ Mean Platelet Volume and the Ratio of Mean Platelet Volume/Platelet Count in Acute Rheumatic Fever
Dolunay Gürses, Funda Akpinar, Mustafa Doğan; Denizli, Ankara, İstanbul, Turkey

181 ▶ Uncovering the Barriers to Exclusive Breast Feeding for Mothers in a Rural Setting in Southern India
Supriya Venkatachalapathi, Alexander Manu, Kathir Subramaniam, Jai Shree Vasudevan, Umadevi Lala; TamilNadu, Chennai, India

188 ▶ Childhood Asthma and Vitamin D-case Control Study in an Academic Tertiary Care Hospital
Veena Anand, Induprabha Yadev, Bindusha Sasidharan; Kerala, India
